

Before Taking 'Early Retirement' At The Age Of 44...

“Who Else Wants To Be Taken By The Hand And Shown How To Make Money From *Their Own Internet Business ...Within Five Hours?*

Starting From Scratch...*WITHOUT*... Spending Thousands of Pounds”

Dear Friend

“Make money within five hours of going online! Now I know you're crazy!” said John, my neighbour, laughing down the phone at me.

He was laughing because I'd told him I had a few hours to kill before my barbeque later that day and I was going to use that time to open a web store. And have my first profitable customers that **VERY SAME DAY**.

“I'll be in profit by 6pm this evening,” I replied. “After all, I've only got to follow my simple system.”

Doesn't he realize how quick and easy it's going to be, I wondered. After all I wasn't doing anything special. Only what I'd shown other eager entrepreneurs who wanted to cash in on the Internet goldmine.

“Ten pounds says you won't have made a penny by the time we start eating your barbeque tonight,” John said.

Sucker I thought. This is going to be like taking sweets from a child.

“You're on. But ...lets make it more interesting. Ten pounds...*and*...the loser has to pay for a round of golf, with buggies and lunch at the clubhouse, next weekend,” was my response.

I put the phone down gleefully. And thought, “There's one born every minute.” He had no idea how much this 'little bet' was going to cost him.
