A shade more stylish

Transform your conservatory for less this spring with 3 for 2 on made to measure conservatory blinds, exclusively by Thomas Sanderson.

Conservatory Blinds aren't just about making your room look good. They also do a very real job in the conservatory environment where outside temperatures can dramatically affect the room. So don't waste the investment you've made in the additional living space and make it a more inviting place to sit and relax.

Thomas Sanderson provides a whole host of solar reflective fabrics that will help keep you and your conservatory cool as the summer months draw closer. Unique SolarTex® coatings cleverly reflect the sun's rays keeping the room cool and comfortable, and the unique shape and structure of a pleated blind will fit perfectly into every shape and size of window or door panel.

Many conservatory owners make the mistake of leaving their roof panels bare, but this is where exposure to the sun can be at its greatest. With coordinating roof and window blinds available you can transform your entire conservatory and create a blissfully cool room this spring.

Thomas Sanderson's specialist installation techniques ensure each blind is fitted precisely into the recess of the window or roof frame, leaving little opportunity for light to filter through. Unlike many other blind options, each Thomas Sanderson blind fits snugly into the window frame, so you have the flexibility to open your windows even when the blinds are down.

Couple all this with the advanced remote control options available and you can control your comfort at the touch of a button!
