Dear Friend

Thinks about what these 'eager-to-do-business-with-you' leads could do to your broker business... You'll be:

- ✓ Slashing the costs involved in generating your own leads.
- ✓ Multiplying your commission cheques many times over.
- ✓ Able to work more productively as your mortgage leads are queuing up to do business with you.
- ✓ Be in control of how fast your business grows.

Allow me to introduce myself. I'm John Bradford, the M.D. of **www.businessleads.co.uk**. And I specialize in generating fresh mortgage leads for brokers via the Internet. Over the last three years I've generated over 30,000 mortgage leads for brokers. Right now 350 brokers currently use the service I provide.

“The quality of your leads is most impressive. They have generated a lot more income for a lot less work. I look forward to developing our business relationship further.” M. Munro, Hampshire

You'll Have Thousands Of Pounds More In Commissions

These leads are people who are all actively searching for a mortgage. They're serious. They're a fresh lead. They've come *willingly* to my website. And they need and want a mortgage *right now*...A mortgage that you could easily provide them with. And in the process earn thousands of pounds in commission fees.

“Your service is excellent. I have arranged mortgages for almost all of the leads given to me. And have increased my business significantly,” M. Winters, Kent

Once a mortgage enquirer has contacted me they know they'll be receiving a phone call from an experienced mortgage broker...Someone just like you. So you'll be talking to someone who is very receptive to what you have to say.
